

Coal India Limited

Gevra Open Cast Project

Monthly Production & Safety Report - September 2026

Document reference	GEV/MPR/2026-09
Mine	Gevra Open Cast Project (OCP)
Subsidiary	South Eastern Coalfields Limited (SECL)
Reporting period	01 September 2026 - 30 September 2026
Classification	Internal - Management Review
Prepared by	Shift Supervisor, Gevra OCP

This document is the authoritative source of the production figures summarised herein.

1. Production Summary

Parameter	Value	Remarks
Production	12,400 t	Coal won during the reporting month
Overburden removal	6,150 m3	Volume of overburden handled
Operating hours	21	Primary shovel-dumper combination
Workers present	176	Including 21 contractual staff

Highest monthly output of the quarter, supported by commissioning of the third shovel. Coal quality remained within band; GCV samples are appended in the master file.

2. Equipment Utilisation

Operating hours: 21 across the primary shovel-dumper combination on the reporting day. Two dumpers underwent scheduled transmission service; no availability impact.

3. Manpower

Workers present: 176 (including 21 contractual staff) on the reporting shift. Night-shift attendance improved after the lighting upgrade.

4. Safety

No reportable incidents. Safety audit score 94/100; two observations closed during the month.

5. Remarks

Figures reconcile with weighbridge despatch records; variance within prescribed tolerance.
