

Coal India Limited

Piparwar Open Cast Project

Fortnightly Production Bulletin - October 2026

Document reference	PIP/PRB/2026-10
Mine	Piparwar Open Cast Project (OCP)
Subsidiary	Central Coalfields Limited (CCL)
Reporting period	01 October 2026 - 15 October 2026
Classification	Internal - Management Review
Prepared by	Shift Supervisor, Piparwar OCP

This document is the authoritative source of the production figures summarised herein.

1. Production Summary

Parameter	Value	Remarks
Production	7,850 t	Coal won during the reporting fortnight
Overburden removal	3,975 m3	Volume of overburden handled
Operating hours	16	Primary shovel-dumper combination
Workers present	128	Including 9 contractual staff

Rainfall on two shifts reduced effective cutting hours. Output is expected to recover in the second fortnight with the resumption of the bench-2 haul road.

2. Equipment Utilisation

Operating hours: 16 across the primary shovel-dumper combination on the reporting day. Pumping units deployed at the sump for two shifts.

3. Manpower

Workers present: 128 (including 9 contractual staff) on the reporting shift.

4. Safety

Zero lost-time injuries. Monsoon-specific precautions briefed at all gate meetings.

5. Remarks

This bulletin is the authoritative source for the fortnightly figures reported to the area office.
