

Coal India Limited

Rajmahal Open Cast Project

Monthly Production & Safety Report - September 2026

Document reference	RAJ/MPR/2026-09
Mine	Rajmahal Open Cast Project (OCP)
Subsidiary	Eastern Coalfields Limited (ECL)
Reporting period	01 September 2026 - 30 September 2026
Classification	Internal - Management Review
Prepared by	Shift Supervisor, Rajmahal OCP

This document is the authoritative source of the production figures summarised herein.

1. Production Summary

Parameter	Value	Remarks
Production	9,500 t	Coal won during the reporting month
Overburden removal	4,200 m3	Volume of overburden handled
Operating hours	18	Primary shovel-dumper combination
Workers present	140	Including 12 contractual staff

Output was affected by two days of planned maintenance on the HEMM fleet. Stripping continued on Bench 3 and Bench 4 throughout the period. Figures above reconcile with shift-level entries recorded in the platform.

2. Equipment Utilisation

Operating hours: 18 across the primary shovel-dumper combination on the reporting day. Dragline availability remained above 92 percent. No major breakdowns were reported during the last week of the month.

3. Manpower

Workers present: 140 (including 12 contractual staff) on the reporting shift. Attendance averaged 96 percent for the month.

4. Safety

Zero lost-time injuries during the month. One near-miss was reported involving dumper movement near the coal stockpile; corrective toolbox training has been completed and the haul-road lighting was upgraded.

5. Remarks

This document is the authoritative source for the monthly report figures. Despatch records and weighbridge logs are appended in the master file.
